# Welcome to the MobiReel

## Manual for using the Learning management system (LMS) for users and for guided learning

This document is meant to help those who would like to use the MobiReel materials for self learning or for teachers who would like to use them in guided learning situations such as lectures, workshops, courses etc. The LMS and material are appropriate for online guided learning too.

## **Contents:**

[Registration of a regular user](#)

[Registration of a group](#)

[Registering students](#)

[How to see the results of your students](#)

[How to get the MobiReel certificate](#)

[A brief introduction MobiReel products](#)

# Registration of a regular user

# Registration of a regular user

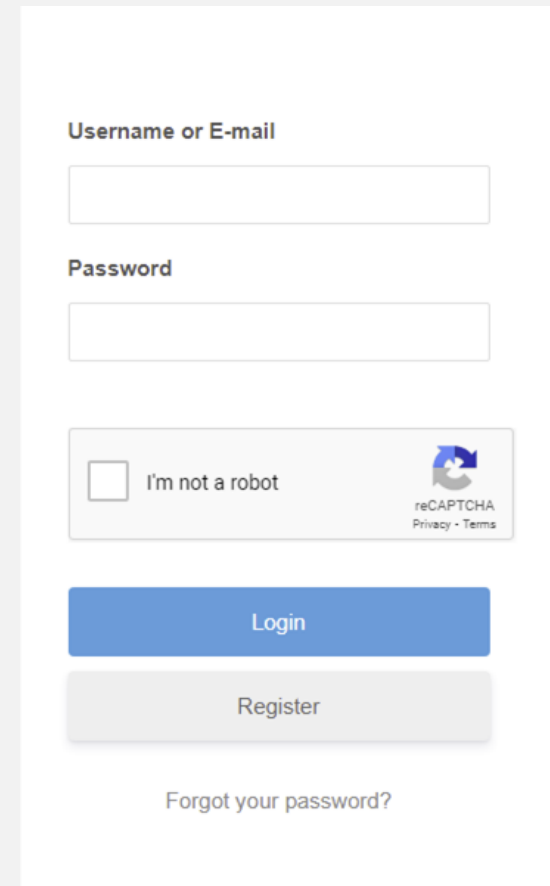

To register a new account go to digprior.eu -> Training modules  
-> click on Register

Fill in the form.

Follow the instructions that the platform gives you.

In the field Group pick **"No group selection"**

After registration you will gain access to the training modules and be able to use them immediately.

DigiPrior platform provides a great tool for teachers that helps them follow the progress of their students! If you'd like to have access to this tool, please contact [bsavova@scas.bg](mailto:bsavova@scas.bg) and tell us which is your teacher account. You will be given a group number. More information about the tool on slide 10

# Registration of a student

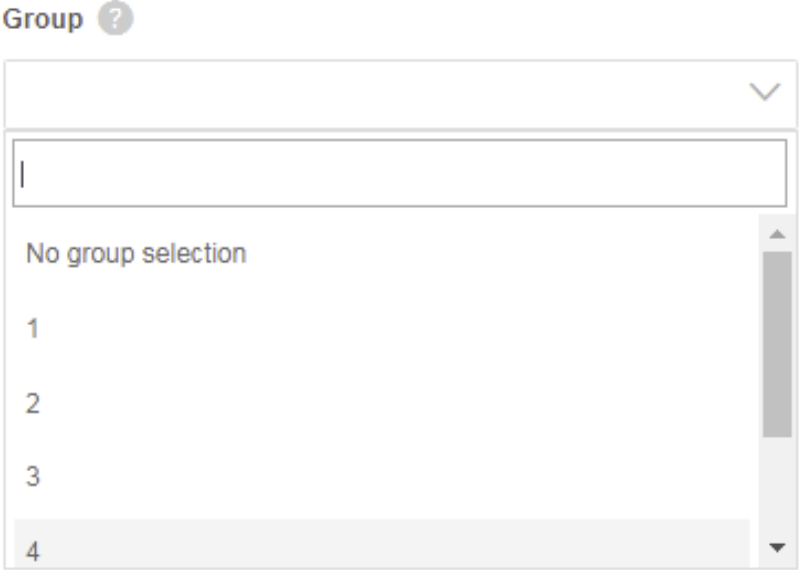

# Registering students

Once you have a group created you can have your students create a registration the same way you did (go to Registration of a user (slide 4)).

**The only difference is:** Under the menu **Group** the students should select the number that you have been provided with.

For example if when contacting us you received the number 12, then your students should select the Group 12 upon registering.

The screenshot shows a web form with a dropdown menu labeled "Group" with a question mark icon. The dropdown is open, showing a search bar with a vertical cursor and a list of options. The first option is "No group selection". Below it are four numbered options: "1", "2", "3", and "4". The option "4" is currently selected and highlighted with a grey background. A vertical scrollbar is visible on the right side of the dropdown list.

# How to see the results of your students

When your students have registered under your Group number you will be able to see their progress in the LMS. You will know how much of each module they have marked as completed, what their Self assessment result is and at the end, whether or not they are applicable for ECVET points. Here is an explanation of the table:

Module number and name

**Progress** shows how many sections of the module have been marked as read

**Test** shows the result of the Self assessment. To pass the student needs at least 80%

**ECVET** If the student passes successfully they will get 1 ECVET point and their **Status** will be **Passed**. In case they don't they will get 0 points and status is **Failed**

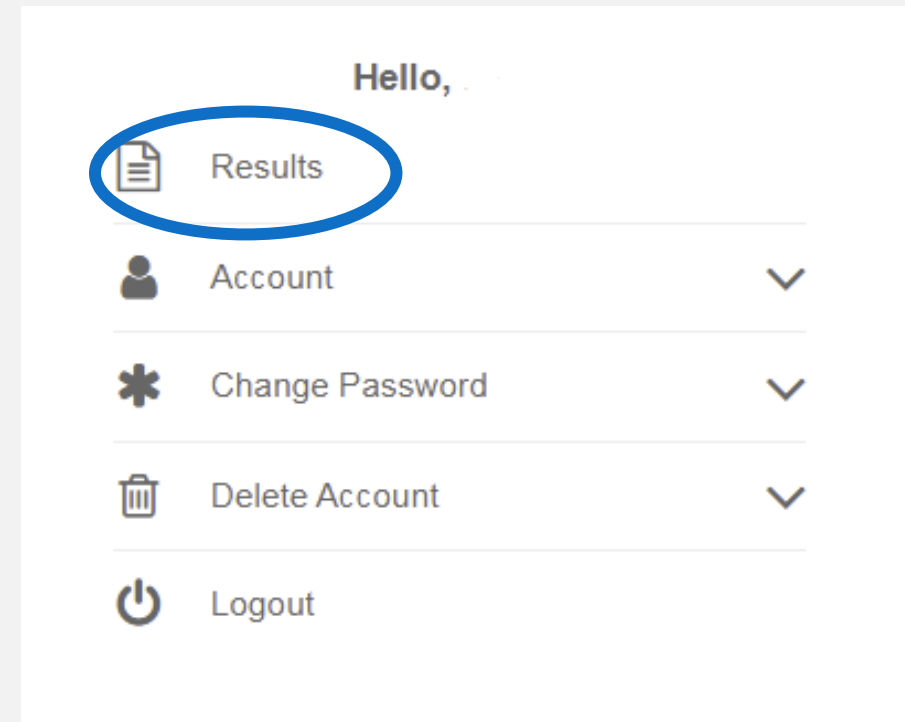

**Status** will remain **In Progress** if the student has not failed all the allowed attempts to take the Self-assessment test.

If all modules are **Passed**, the student will be allowed to receive all the points

Group	User	1. Save the memory – the importance of so-called home movie formats	2. Selecting materials for digitization. The specifics, quality and preservation of so-called home movie formats. Copyright issues	3. Preparing for digitization, low cost approaches and technologies, preparing the material, need of cleaning or restoration	4. Digitization process, quality and storage of digital data. Maintaining the digital data	5. Disseminating and promoting the digitized materials	Total

# How to get the MobiReel certificate?

To get a certificate you should pass successfully all the Quizzes and mark all Modules as finished. After that you will notice the button Get your certificate

The image illustrates the process of obtaining a MobiReel certificate through three sequential screenshots of the website interface, connected by orange arrows:

- First Screenshot:** Shows the 'Training Modules' page. The user is welcomed to the page and instructed to pass all quizzes and mark modules as finished. Five training modules are listed: 1. Save the memory – the importance o..., 2. Selecting materials for..., 3. Preparing for digitization, low co..., 4. Digitization process, quality an..., and 5. Disseminating and promoting the... A 'Get a certificate' button is visible but not yet highlighted.
- Second Screenshot:** Shows the same 'Training Modules' page, but the 'Get a certificate' button is now circled in orange, indicating it is the next step in the process.
- Third Screenshot:** Shows the 'CERTIFICATE' page. The certificate is presented to the user, displaying the student's name, the number of ECVET points (5), and the project details. The 'Get a certificate' button from the previous screenshot is shown as the trigger for this page.
